Hi Rupert,
Just following up with you in regards to the Isotech samples....
Thanks,

Subject: Dimock - Isotech Sampling

Rupert,
Do you know if Isotech sampling will occur at any of the homes to be sampled in March?
Additionally, from what I understand the onsite OSC determines whether or not a house is sampled for Isotech analyses. I am not exactly clear on how that decision is made (i.e. effervescence noted, historically high dissolved gas data, etc..) Would you be able to provide me the decision criteria so I can update our samplers as to what it is?
Thanks,
